

Presenting Exhibits: *Simple vs. Advanced*

The **Simple exhibit tool** (*shown right*) provides an improved alternative to dropping files in Zoom chat, giving you more security, better viewing experience, numbering capabilities, and the files are still available after the event ends.

The **Advanced exhibit tool** provides an interactive on-screen presentation experience, including exhibit sticker numbering, annotation tools, and keyword searching.

Similarities and Differences

	Simple	Advanced
Pre-Load Exhibits	✓	✓
